There are risks associated with CFD and Forex trading which are leveraged products and therefore carry a high degree of risk. You should not engage in CFD or spot forex trading unless you understand the nature of CFD and/or spot forex trading, how they work, how you make a profit or a loss and the extent of your exposure to risk and loss. Note in particular that your losses can be unlimited and no deposit or other amount you have paid, such as the Initial Margin (also called Margin or Variation Margin) will limit your losses. You may lose all your invested capital and in certain circumstances more. Only speculate what you can afford to lose. It is also advisable that all investors should seek advice from a professional investment advisor before making any investment in Financial Instruments.
